Who i'am

## A bit — about me

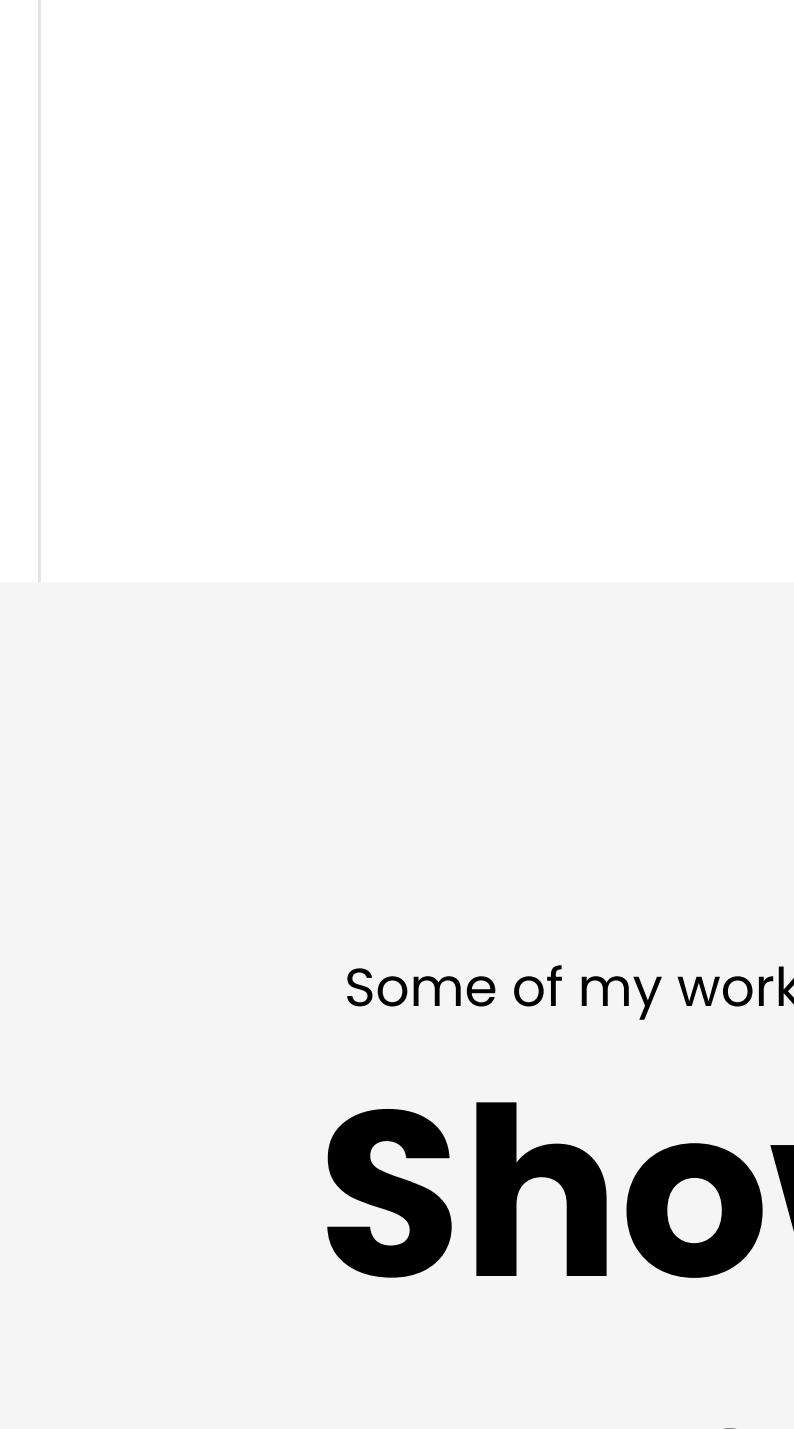

I'm a freelance web designer focused on creating digital solutions and purposeful experiences for tomorrow's brands.

Always in love with code and design, i like to learn new things every day and challenge myself with new projects, translating concepts into visual design by paying close attention to details, and convert it into highly interactive experiences. My work focuses on creating holistic digital experiences that people fall in love with

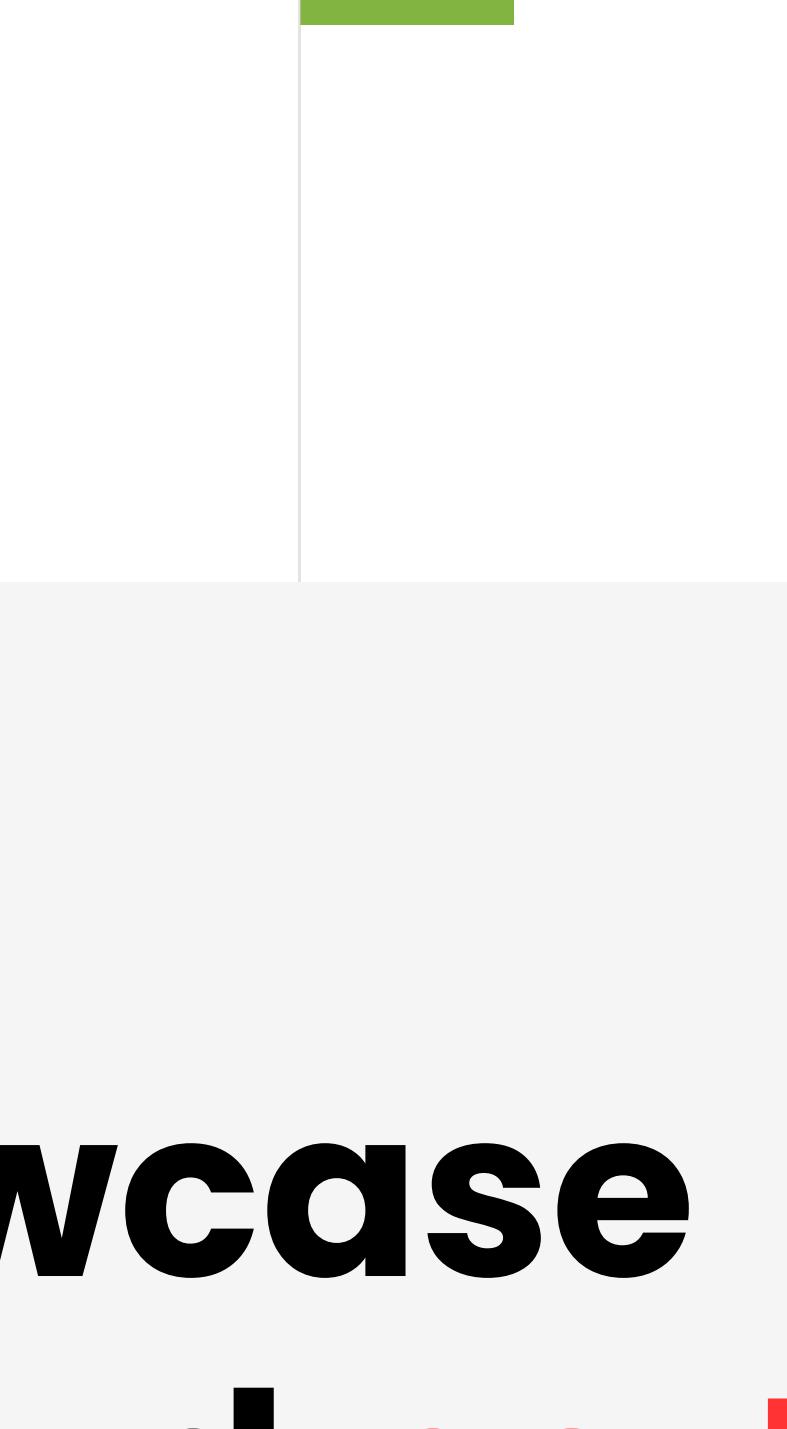

## Area of — expertise

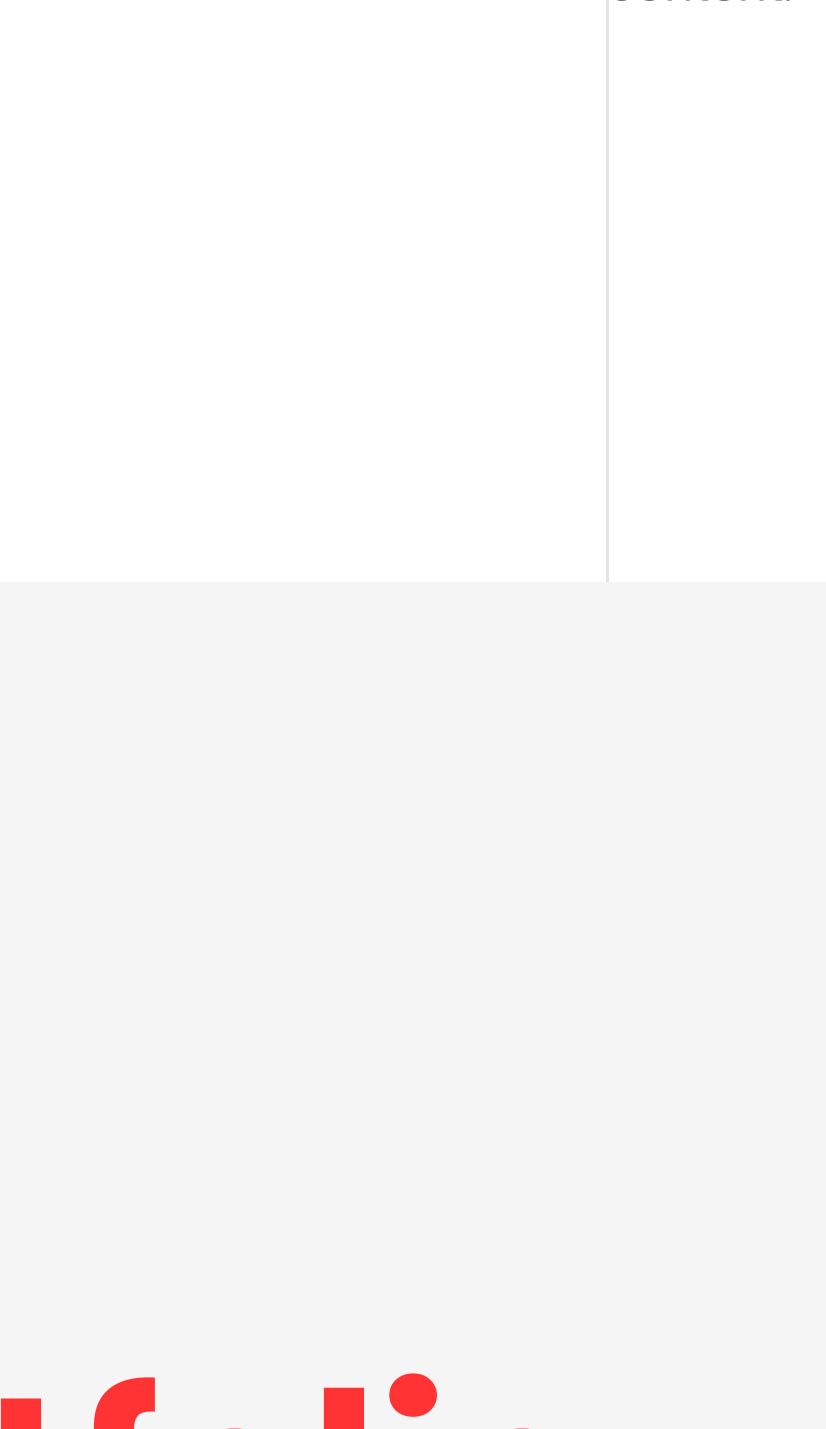

I love to work on a variety of projects that emotionally connect. After many years in the design industry, I know what's needed to make online products and experiences feasible, usable and beautiful.

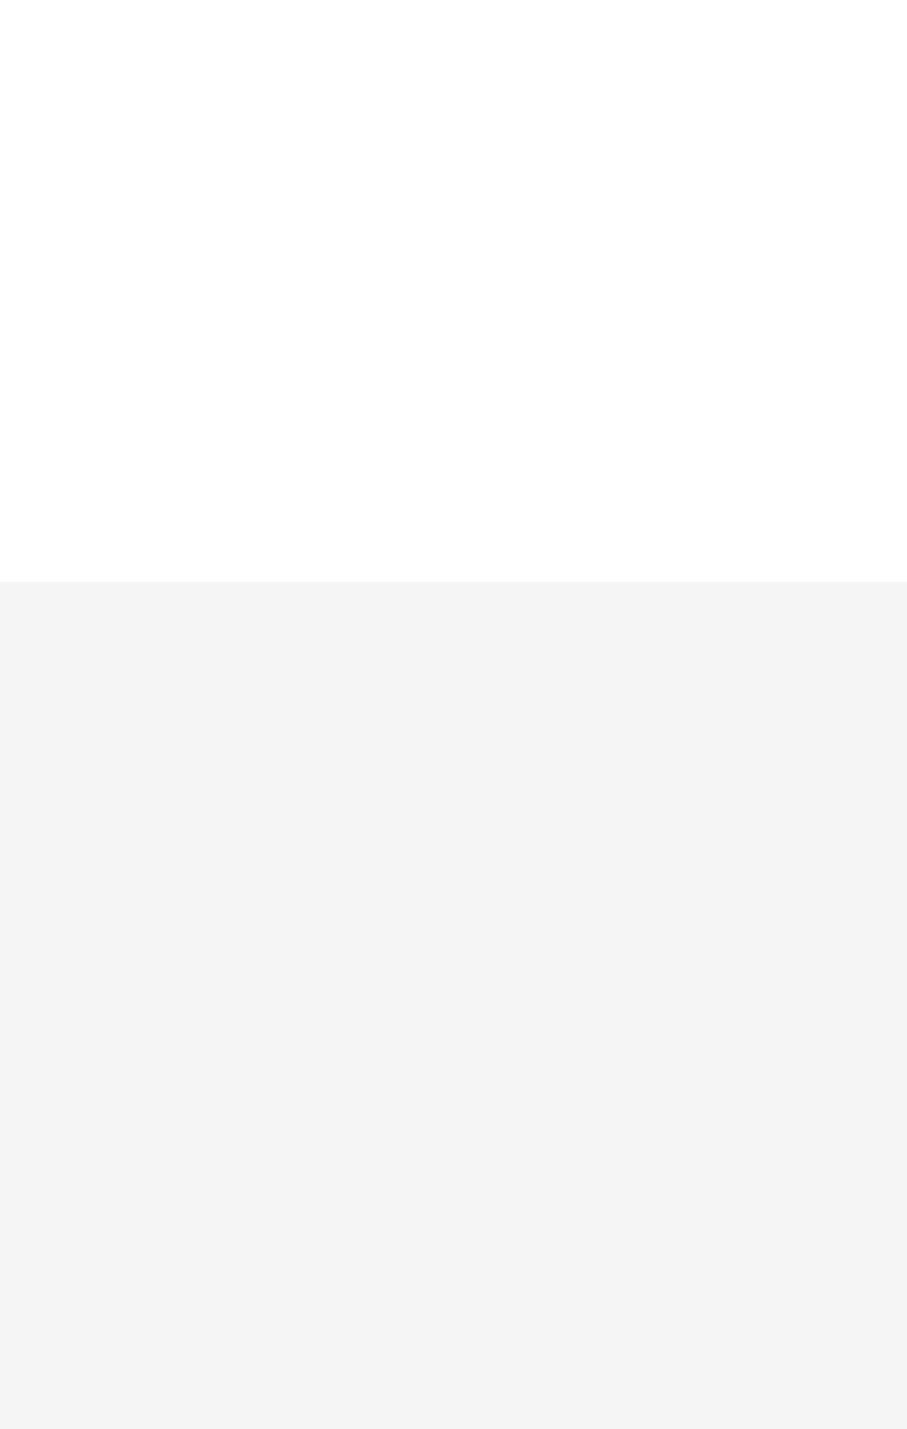

Design  
and prototype

Web  
developpement

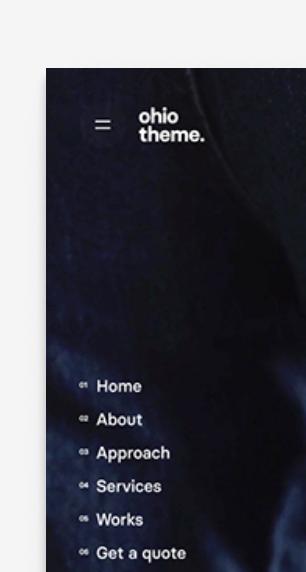

Mobile & Web app  
developpement

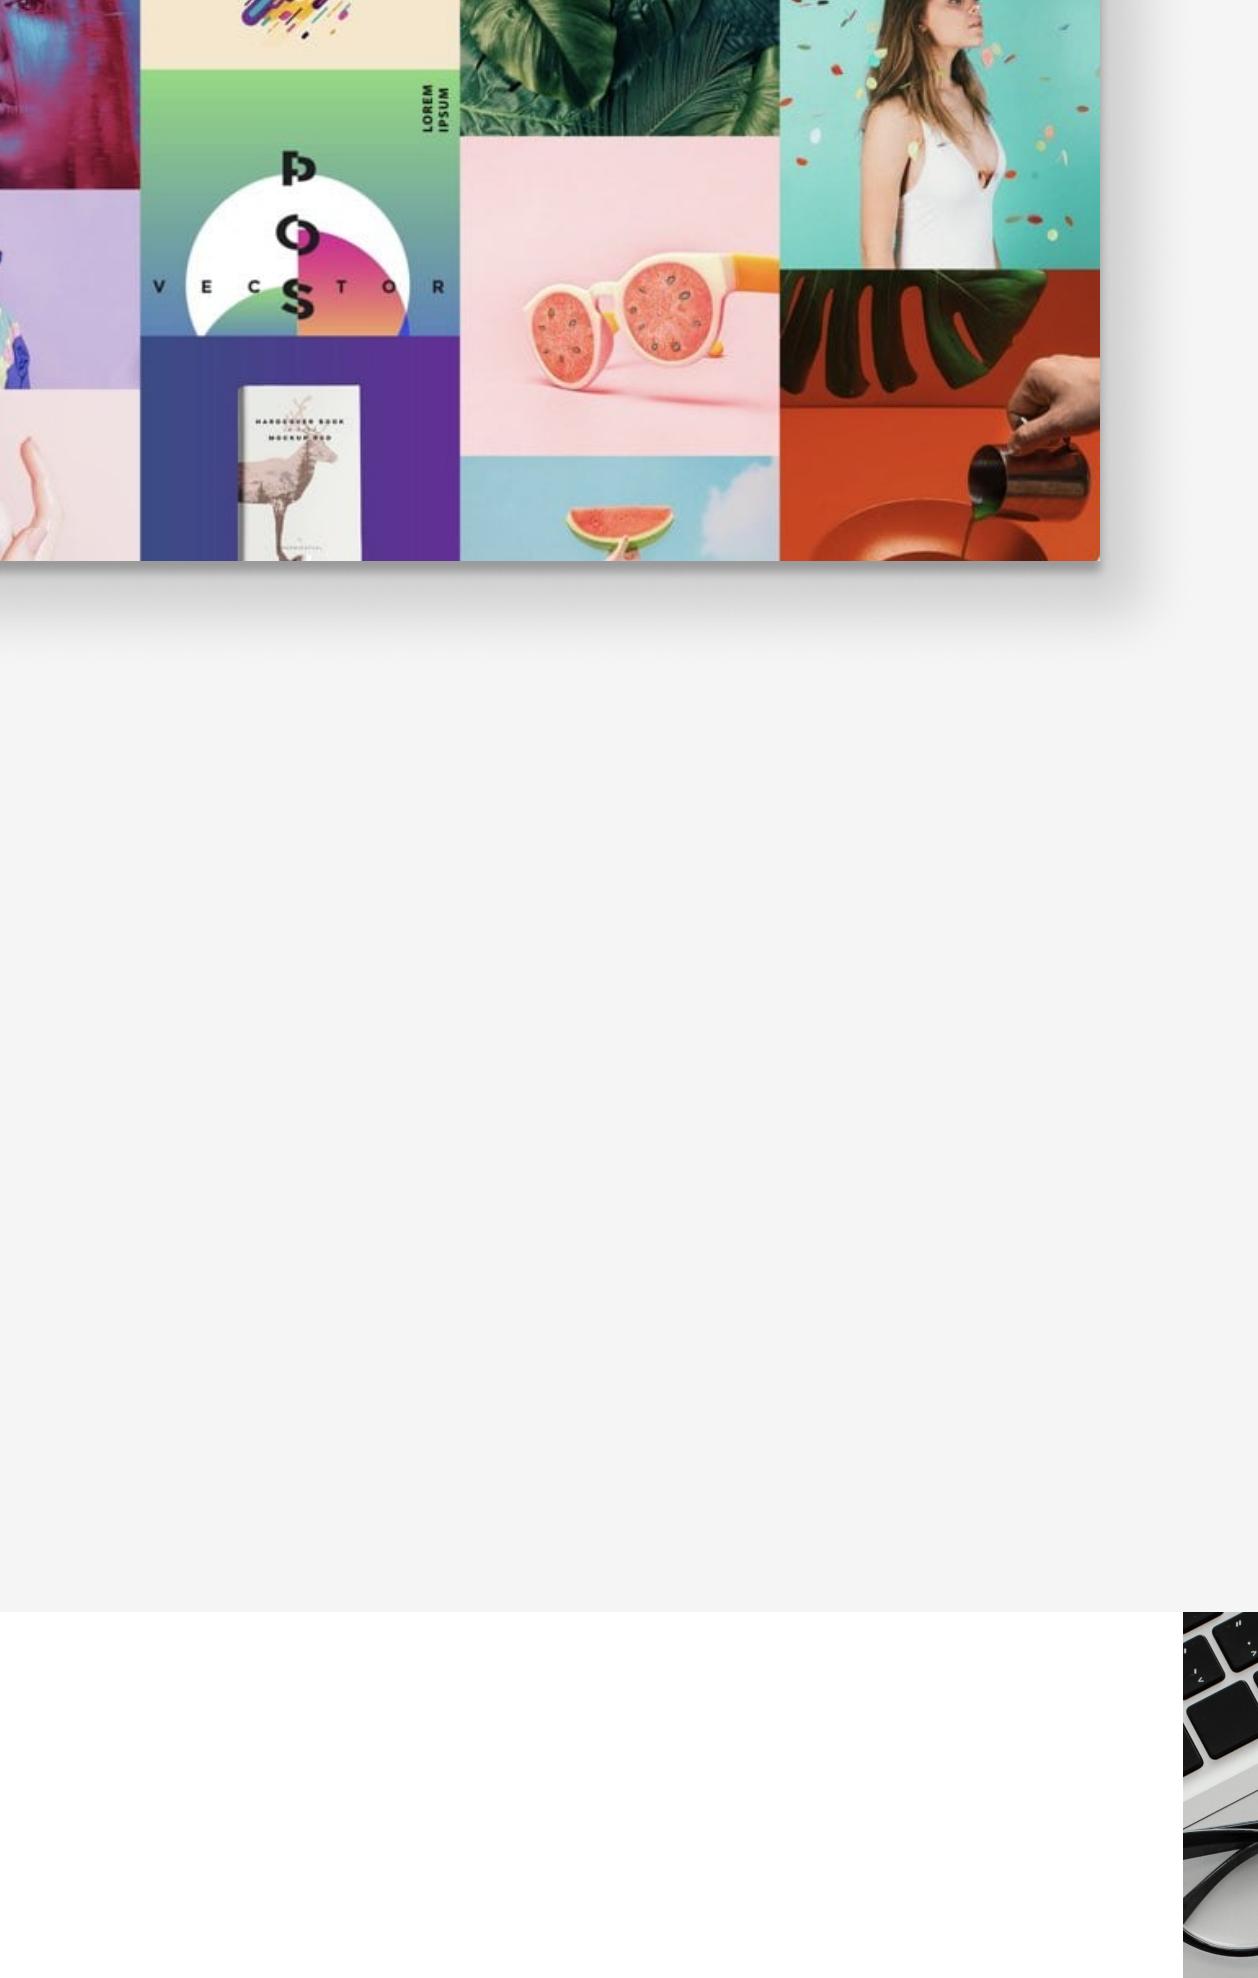

Deployment  
and integration

## Skills — & abilities

Through my 5 years of my career I have been working for over 500 clients from all over the World. Thanks to my experience I am able to provide high quality services.

Experiences

## My background
